*What's in a name? In the case of helvet – an entire nation's spirit. helvet is Switzerland. It embodies the soul behind Swiss-made and Swissness. It's a tribute to all that this great country has done and will do.*

*helvet* is the genius of watchmaking, the unparalleled beauty of the mountains, the thrill of freeriding, the taste of chocolate, the hope for a green future, and the vision of Switzerland as an oasis in a turbulent world. *helvet* is neutrality and expertise. It embodies both the local and the international. Side by side, *en tête à tête*. *helvet* is a promise of fulfilment, quality, luxury, and authenticity. It is a symbol of our know-how and our ability to pass that on – one foot planted in tradition and the other reaching forward to the future. It is the alchemy that connects yesterday to tomorrow and here to everywhere else. *helvet* is a rally cry for celebrating everything the country is doing, embodied

under a single brand name. With the dexterity of a Swiss knife, *helvet* acts as a bridge between the 1001 different facets that make up what it means to be Swiss. *helvet* was created to embody this message and to share it with the world – on paper, of course and in high-end magazines dedicated to the world's great- est ski resorts, including Verbier. It's about enjoying the best in life and the constant reinvention of what that means – from food and wine to the most modern superchalet with an echo of the mountains and forests in all of their glory. *helvet* is Switzerland. Its logo unites the hashtag and the Swiss cross, a union of today's digital era and the traditions that make us who we are.

Hotel Cordée des Alpes

A taste of the mountains

Text: Daniel Bachmann  
Photos: Hotel Cordée des Alpes

The Hotel Cordée des Alpes is a member of *Small Luxury Hotels of the World* and is the only Verbier locale to have received a key from Michelin, as part of their new classification system. It's a nod to the hotel's uniquely discreet luxury, which beautifully marries Alpine authenticity, technology and modern design.

From a drone's perspective, the ski station, ski area, and Verbier Alps take on an entirely new scale.
